Community Connections

A small-group community-based integration program that supports individuals to build connections through volunteering and education.

Classes and activities focus on four main learning domains: Pre-Vocational Skills, Health and Wellness, Skills for Independence, and Recreation.

Individualized daily schedules are created with each person to target the areas they want to develop in order to meet their life goals.

Tailored Day Services (TDS)

Innovative and completely Person-Centered, TDS can be a stand-alone or a supplemental program, allowing individuals to get the support they need in a way that works with their busy schedules.

One-on-One staffing supports individuals in meeting their short-term and long-term goals in a completely customized way.

Not sure if our services are right for you?

Employment Services

→ Paid Internship Program

Explore different fields of interest while building a resume and learning on-the job skills - all while getting paid!

→ Group Employment

Work in a small, collaborative group while receiving coaching and support. Build work-stamina while learning proper and safe equipment usage and maintenance skills that can be taken into the next job!

→ Competitive Integrated Employment

Our Employment Specialists can help match individuals with a job they love in the communities they live in. We'll even support on-site until they're comfortable with completing job tasks independently!
